

10 June 2019

Mr. Stoil Ivanov,  
PhD Candidate  
Faculty of Physics, Sofia University "St., Kliment Ohridski",  
5 James Bourchier Blvd., 1164 Sofia,  
Bulgaria

Dear Mr. Stoil Ivanov,

It is my great pleasure to invite you to the "**10th CanSat Leader Training Program (CLTP-10)**" which will be held on August 19-30, 2019 at Funabashi Campus of Nihon University, Funabashi, Chiba, Japan. CLTP-10 is to provide its overseas trainees with the opportunity to learn and cultivate the space engineering techniques, using HEPTA-Sat. It also intends to show you how to study teaching methods for sustainable education in your country. HEPTA Sat is a model satellite as training kits for trainees to learn, through hands-on training, spacecraft system in a rather shorter period of time.

The Program is an annual international program held in Japan at different universities and, Nihon University will host it the fourth time, since November 2011. The main contents of the program will consist of HEPTA-Sat assembling training, a field test receiving GPS signals, your presentation about what you will have learnt from the training program, an award ceremony and a three-day teaching training session, right after the online lecture of space engineering, system design, project management, etc. in your country.

Because of your submitted documents, the score of the assessment test you have taken, and your past records, we would like to offer you the following conditions:

1. A free training fee. We will be responsible for the training fee of 330,000 yen (3,000 USD, @110 yen),
2. Accommodations costs from Aug. 18 (Check-in) to Aug. 31 (Check-out) (13 nights with breakfast) will be also covered by us.
3. Moreover, we will cover the one-way air fare (discount economy) between Sofia and Tokyo.

Details of the above conditions will be discussed later.

Finally, we would like to advise you strongly to get an oversea accident insurance, just ready in case.

We thank you for your interest in participating in the coming CLTP-10, and are looking forwards to seeing you in Funabashi, Chiba, JAPAN.

Best regards,

Masahiko Yamazaki (Dr.)  
Instructor of CLTP-10 and Assistant Professor,  
Department of Aerospace Engineering,  
College of Science and Technology, Nihon University,  
7-24-1 Narashinodai, Funabashi, Chiba 274-8501, Japan
