For further information, keep on reading...

Dear University Innovation Fellows,

Here's your Salzburg Cohort speaking! Some of you might know some of us from CuriosuU summer school at Twente this year. The participants from our cohort were so thrilled about meeting other UIFs that we absolutely wanted to host our own Meetup. During the whole six weeks of training, we got convinced that Salzburg is the ideal location for the next opportunity to get together! Amazed by this idea, we went the "extra mile" and started planning and organizing this unique Meetup. By this time, most of you might be wondering what this rather special title is all about.

So here are the hard facts:

❊ **When?**   February 14th - 20th 2020

❊ **Where?**   Salzburg & surroundings

❊ **What?**   4 days of workshops, a company visit,
                   sightseeing & 1 whole day of snow activities

Why come to Salzburg?

Honestly, why not? Salzburg has just been awarded the title "Best in Travel 2020" by Lonely Planet - seems about right to take the chance and visit such a beautiful city, doesn't it? Situated on the northern edge of the Alps, Salzburg is the place to be winter! Also, it's the capital city of the federal state of Salzburg, which, with together with eight others, forms the country Austria. It's widely known for being ideal to go skiing and do other activities in the snow. Of course, you will get to experience outdoor activities in the picturesque landscape in the surroundings of Salzburg!

With about 150.000 inhabitants, we have more than enough space to accommodate a few more people. In summer, the Salzburg Festival (which is famous worldwide for its operas and concerts with all the big stars) attracts millions of tourists. Also, the film "The Sound of Music" has played its part when it comes Salzburg's fame. If that's still not enough for you, you might want to know that Salzburg is also the birthplace of Wolfgang Amadeus Mozart - our city is really well-known in the musical world. Additionally, you can't miss this chance to get insider hints from real (or as we like to say in German: "waschechten") Salzburg people!

The Program

What's going to await you?

The final program is to be released in January, but so far, we can tell you this: You definitely don't want to miss our Meetup! We are going to have incredibly interesting workshops about the most exciting topics at the most beautiful locations as well as a visit to one of the biggest companies in Salzburg!

And even more: We have a whole day reserved for fun activities outside, for example skiing. Don't worry, if you don't want to ski, there'll be alternative activities, such as sledding. Of course, there will still be sufficient time to get to know the other participants, for example at the Pizza-get-together on the first evening. And if pizza can't convince you, we don't know what can...

You can find the current schedule on our website.

In Salzburg, you'll be staying in triple bed rooms at the 7 Days Premium Hotel, which is within walking distance from the Salzburg University of Applied Sciences in Puch Urstein.

For further information about your hotel, please visit their website:
